

## Registration is now OPEN!

This three-day educational conference is full of interesting sessions and fun networking events for all members of the bleeding disorders community. Everyone will be able to find something to pique their interest or strengthen their professional skills. Affected individuals and families will find sessions on nearly every aspect of living with a bleeding disorder, from the basics of hemophilia and VWD to the latest in gene therapy treatment. Our sessions are divided into tracks, to help people find the sessions that might be of interest to them. However, most sessions are open to everyone, so please feel free to create a schedule that suits your needs.

- A three-hour pre-conference on von Willebrand disease
- A “mini track” focusing on mental health
- A full three-day track for teens and young adults
- Three days of our Kids Program that will include fun and games as well as learning opportunities
- An overview of new and emerging therapies, including gene therapy
- A full track for rare factor deficiencies, including FVII deficiency, FX deficiency, FXIII deficiency and Glanzmann’s thrombasthenia.

The annual meeting scholarship is open to anyone who would like to participate and has not attended in the past three years. It is an opportunity for the bleeding disorder community to attend educational sessions, network with others and attend social events. HOC will sponsor five family scholarships. If selected, you will be contacted by HOC.

If you're interested in attending, you must complete a scholarship application and submit to GLHF

***BY March 13, 2019!***

To get an application:

- Pick up at HOC
- Print from our website 'PROGRAMS' > 'Education' > 'Nationals Applications 2020'
- Request an application via email to hayleys@hocgb.org or ericar@hocgb.org
- Call the Center to have one mailed to you

If you have any questions regarding the Nationals application process please contact HOC at 920-965-0606.
